

Advising Guide for Study Abroad in FINANCE

PLANNING TIPS

Look into your options early

KU students can study abroad as early as the second semester of their first year. The KU Study Abroad Fair held in early September is a great place to begin your program search.

Semester Study

As a Finance major, your best semester option is to study abroad during the second semester of your junior year.

Make a Graduation Plan

Talk to your academic advisor about how to include study abroad within your curriculum.

Summer Options

Summer is a great time to take business, general education, or elective courses abroad. You can also participate in an international summer internship program.
